Naw York, October 12.—The Herald publishes the following from Atlanta, Ga., this morning:

Gen. John B. Gordon, on being asked to day his opinion concerning the disclosures about himself made by Ferdinand Ward in connection with the Belmont Coal Mines are situated in Jackson county, Ala., and were owned and operated by a company composed of my brothers, Eugene and Walker Gordon, Gov. Colquitt and myself. We had operated this mine successfully, and the returns each month of showed an excess of receipts. We needed money to develop the mine and to ascertain the real value of the property. We engaged Mr. Eugene Zimmerman of Cinculati to come down and inspect it. Mr. Zimmerman is the most skillful expert in this business in this country. Mr. Zimmerman is the most skillful expert in this business in this country. on the entire property. These bonds were to bear 6 per cent. Interest. We agreed to give Grant & Ward full control of the mine, although they owned only a minority of the stock. Ward's brother was sent down to examine the mine. He reported favorably upon it, and the firm of Grant & Ward then paid over their money, which was every cent used in developing the mine. The mine turned out a losing affair, as a man was placed in control of it who knew nothing of the business. I resigned the presidency of the company, as I did not approve of this man's management. About this time I needed money, and I borrowed \$18,000 from the Marine Bank. I did not get the money on the indorsement of Grant & Ward, but on my personal note and those of my associates. As security we gave \$300,000 of stock in the Belmont Coal Company. Soon after I borrowed this money Ferdinand Ward sought to purchase our stock. He continued his offers until the \$18,000 fell out at the Marine Bank. It was not convenient for us to pay the money then. We had lost faith in the management of the mine, and had by our own contract reffair, as a man was placed in control of it mine, and had by our own contract re-linquished all rights in the management. We agreed to let Grant, Ward & Co. take the entire stock in consideration of paying the \$18,000 owed to the Marine Bank.

to the Hon. John Sherman, United States Senator. This gives a peculiar interest to the election of members of the Legislature. Estimates that purport to be based upon a polling of the State by the Democratic and Republican committees give widely different results. The Democratic estimate elects Gov. Hoadly by from 20,000 to 25,000 plurality. The Republican elects Judge Foraker for Governor by from 12,000 to 15,000 plurality. Estimates in the Legislature by both parties make the result close, though both claim a majority. The element of uncertainty in the elec-

tion of Governor is the Prohibition vote. It is generally conceded that its increase will be mainly from the Republicans. The vote two years ago amounted to 8362. The Democratic poil this year estimates it as 30,000. The Prohibitionists themselves claim a still greater vote. It is possible that many who vote for Dr. Leonard on the Prohibition ticket will vote with their former party on the Legislature, so that the vote for Governor will not indicate exactly the complexion of the Legislature.
